

Invu is an affordable, easy to use, highly effective document management system. Invu enables Mortgage brokers and packagers to control all documents compliantly, share information, increase productivity and archive securely ... and with an average return on investment of just 5 months.

Invu has now been fully integrated, with Dashboard, by Lindenhouse Software. This enables users of Dashboard to seamlessly store and access documents in Invu while working through their usual Dashboard browser.

Dashboard case numbers and references are maintained but all documents are now stored locally within Invu. This allows the documents to be retrieved immediately from both the Dashboard browser or from Invu, even whilst offline!

### Invu: Dashboard integration explained:-

Documents are scanned through a high-speed, low cost production scanner and can either be seamlessly linked directly to the dashboard case record or routed to an individual or group electronic Intray for allocation to the record at a later stage. Other electronic documents e.g. e-mail, Word, Excel etc, can also be easily attached.

## Retrieving documents from Dashboard:

Once documents are stored into Invu, they can be quickly retrieved and easily e-mailed, faxed or printed directly from the screen. You can choose to retrieve the whole case file or specific document within that file.

The screenshot displays the Dashboard interface. On the left, a navigation menu includes 'Contents', 'Add New', 'Search', 'Case', 'Task', 'Configuration', 'Tools', and 'Logout'. The main area shows 'Case Details' for Case ID 'tes9010904000000340', Applicant 'test test, test test', Product Type 'Mortgage', and Case Owner 'Mike Abbott'. Below this, there are buttons for 'Save Document', 'Attach Document', and 'Search Document'. A 'Search Document' section includes dropdown menus for 'Select Product' and 'Document Type Name', and a text field for 'Description'. To the right, the 'INVU Image Viewer' displays a preview of a 'Mortgage Application' document, showing sections for 'APPLICATION DETAILS', 'TMO MEMBER'S DETAILS', and 'CREDIT/DEBIT CARD AUTHORISATION'.

All of these options allow you to find your documents and distribute them immediately, saving you hours of time!

### Immediate benefits:

- **Immediate retrieval of documents:**

Information is easily shared; personnel save six weeks per year and increase their productivity.

- ***Competitive-edge:***

By offering a superior level of client service.

- ***Space saving/Storage costs:***

Moving business premises can be avoided. Space freed up by scanning could house a productive member of staff therefore increasing profitability.

- ***Compliant/Legislation friendly:***

With full audit facilities documents are now fully compliant and can adhere to many legislation-governing bodies.

- **Disaster recovery contingency:**

Invu provides the facilities to produce a full back up of all of your paper based documents.
